FOR COUPLES WANTING TO SEEK
A DEEPER CONNECTION WITH EACH OTHER

PASSION - THE BUILDING BLOCKS OF LOVE

For Couples wanting to seek a deeper connection with their soulmate ... when you know your relationship can be more than where you are right now. A real system to create a life of never-ending Fairy Tale Romance and Wild Fantasies! To be an inspiration of love, romance, achievement and success to those around us.

"When two people decide to share their lives together, they started it out with good intentions of a beautiful life to come. In fact, it is beautiful for the first three months, some people call this the "honeymoon" period, after that though, it seems to be a stagnant environment. The sparks, the passion, the quick heartbeats seem to have disappeared, and we are told that this is normal - It is time to start a life of compromise.

Yes, I used to think it was normal too. Until, I learnt that there are specific things we all do during the "honeymoon" period that 85% of people do not carry on doing after the first 3 months. It is these actions that will keep our love and passion going on, and give us the deepest sense of security and love.

Most of us never learnt what it meant to be living in a fulfilling relationship with another person. We usually learnt lessons through failed relationships, and these are both lengthy and painful. In my process of studying and identifying these traits to a passionate relationship, I met many people who have been in relationships for more than 20 years and yet they still enjoy and play like it was only yesterday that they first met!

There is a way to nurture the same kind of love and passion every single day of your life together with your loved one."

Module 1 | WHAT IS THE SECRET INGREDIENT TO LOVE?

Most people tell you that love is a random feeling - but that is because most people have not studied the psychology of love. It is the result of a precise set of actions that we do every single day to nurture it. Any avid gardener will tell you that beautiful roses do not just appear out of the ground. They must be nurtured with the right amount of sunlight, water and soil. Love is beautiful every single day once you know what nurtures love and what kills love. Otherwise, you would be stung by the thorns on the roses!

In this module, you will learn:

- * The Magnet of Life - The Science of Male-Female Attraction
- * The Simple Building Blocks of Love
- * Love is not a random feeling - It can be nurtured

Module 2 | WHY DOES LOVE HAVE TO BE PAINFUL ?

The common question that is asked in almost every relationship forum - "Why does Love have to be painful?" Thousands of replies later and many people still cannot find the answer. This is simply because the answer does not lie in love. If you think back through your relationship, the most loving and best days were also the happiest and definitely least painful days! The days that were painful were days that love was *cut out* from us! **In this module, you will discover:**

- * What can we learn from our most beautiful days?
- * Using the lessons learnt from our own loving moments to create everlasting love
- * Removing the pitfalls that cause us to unwittingly cut out love from our lives

Module 3 | THE BEAUTY OF QUARRELS

No quarrel is ever fun - especially when you are in the midst of it. In fact, it is usually painful and you feel like tearing someone up or bursting into tears. Many times, it is both at the same time. Quarrels are always painful but they need not be hurtful. They are like the thorns on a rose, painful when you touch, yet if there are no thorns; is it really a rose? It is like the collision of fireworks. A healthy passionate relationship must have quarrels because both man and woman would be very involved in the relationship. However, when the quarrels are mismanaged they become toxic and leave deep hurt in a relationship. The key then is to embrace the quarrel as natural, and let it happen without scarring the relationship with hurt. **In this module, you will learn:**

- * Why quarrels are important to keep any relationship passionate.
- * How avoiding quarrels in a relationship will lead to a breakup.
- * 5 principles to keep quarrels healthy and diffuse hurt.
- * The best 3 step way to solve all relationship quarrels.

Module 4 | DAILY THINGS WE DO THAT KILL LOVE IN OUR RELATIONSHIP

If your house had a leaking roof, the first thing to do would be to seal up the hole in the ceiling before you even begin to think of any renovation to your house. In this module, you will learn about the specific things that are sapping away your energy during the day. It is so bad for most people that by the time they meet their loved ones, they are tired and in dire need for love and attention. This usually leads to meaningless quarrels and unhappy evenings. Take action to stop the energy leaking and you will be excited to meet your loved ones at the end of the day, just like those "honeymoon" days! **You will discover:**

- * 10 common things that we do at work which drain our energy.
- * 3 ways that most people dull their relationship once they start planning for their wedding!
- * The daily things that most couples do that encourage boredom in a relationship.
- * How we kill our own passion when we make choices based on efficiency and highest returns all the time
- * Turning points always occur in relationships and when you do not act the right way at the right moment, you will cause your relationship to go bland and downhill. Learn the proper steps to ensure that you are ready for your next turning point.
- * Hunger for Passion sets in on certain days, and when we miss it, we will fulfill our passion on other people instead of our partner. (It is done so commonly that many people are shocked by it. It is not two-timing, but doing it too often, even unknowingly, will lead to flat boring relationships.)
- * Not spending proper time away from each other can kill your relationship

Module 5 | HOW DO I CREATE LOVE IN MY LIFE EVERYDAY ?

When we want to do well at work, we take up a new diploma or a skills upgrade course. In our love life, we need to do the same. Love can either be nurtured like a beautiful rose, or left to rot and let nature take its toll on the flower. There are specific simple things that we can do everyday to generate passion in our relationships and create happy, wonderful moments.

You will learn:

- * The 7 Second Instant Love Flood Strategy
- * The effortless way to take the pain out of all quarrels
- * Love gifts to each other every day (It does not require your credit card!)
- * Neutralising sneaky actions that are anti-Passion
- * Build a plan to incorporate Passion seeds throughout our busy workday that will blossom with *rage* in the night!
- * 3 Immediate Steps to planning your retreats that will radically bring your love life to a new level!

Module 6 | LIVING YOUR DREAM LOVE LIFE EVERY SINGLE DAY!

We were forced to try and work out our relationships by trial and error in the past because we were not given any better systems. Now, that you have a system in your hand, that is structured to nurture love and yet flexible to fit your every circumstance; you can feel confident to dream of the beautiful life of passion ahead. **You will learn:**

- * Learn the skills to grow hand in hand with your partner to create the ultimate relationship!
- * Designing your daily life of Passion that you can live every single day amidst your busy work schedule
- * Beyond Passionate Living : To Love Freely in a devoted Relationship

Your Relationship is Awaiting Your Transformation
